COMPANY: Arizona-American Water Company

AGENDA ITEM NO. U-25

DOCKET NO. W-01303A-08-0227; SW-01303A-08-0227

OPEN MEETING DATE: November 19/20, 2009

Page 61, lines 22.5 INSERT: "The Commission remains concerned about the impacts associated with groundwater usage within Arizona-American's systems and service territory. While many of Arizona-American systems are located within an Active Management Area, several are outside these zones and are not subject to ADWR reporting and conservation requirements. Accordingly, Arizona-American is not required to comply with conservation goals and management practices of the Arizona Department of Water Resources ("ADWR") in all of its systems. In light of the Commission's desire to conserve groundwater in Arizona, we believe it is reasonable to require Arizona-American to implement within 120 days of the effective date of this Decision, at least ten Best Management Practices ("BMPs") (as outlined in ADWR's Modified Non-Per Capita Conservation Program), in each of the systems that are the subject of this rate case. The Company may request cost recovery of actual costs associated with the BMPs implemented."

Page 81, line 4.5, INSERT NEW ORDERING PARAGRAPH:

"IT IS FURTHER ORDERED that Arizona-American shall implement within 120 days of the effective date of this Decision at least ten Best Management Practices (as outlined in ADWR's Modified Non-Per Capita Conservation Program) in each of the systems that are the subject of this rate case and submit those BMPs to Docket Control within 120 days of the effective date of this Decision. The Company may request cost recovery of actual costs associated with the BMPs implemented."

Make all conforming changes as necessary.
